

(b)(3)

Washington, D.C. 20505

Mr. Arthur J. Fluhr
Director
El Paso Intelligence Center
2211 East Missouri, Suite 200
El Paso, Texas 79903

Dear Mr. Fluhr:

In 1977 the Director of Central Intelligence made a commitment to the United States Senate to make every effort to locate persons then unknown who might have been subjects of CIA drug testing without their knowledge or consent. Since the individual primarily involved in the drug testing was an official of the Federal Bureau of Narcotics at the time of the testing, 1950's and early 1960's, the Director obtained the assistance of the Drug Enforcement Agency (DEA) for the investigation. It was through the auspices of the DEA that we learned of your facility and ultimately tasked you to help locate several persons.

That our efforts to find these people has had the limited success that it has is due in large measure to the help you have given us. I particularly wish to express my appreciation to [REDACTED] who has been most helpful.

Sincerely,

[REDACTED]
Special Assistant
Deputy Director for Administration
